# ZÜRICH

Switzerland is one of the leading countries for blockchain technology. Although the Ethereum Foundation is headquartered in Switzerland, Zurich is one of the last European cities which did not host a major Ethereum focused conference yet.

This will change with the ETHZuri.ch Conference 2023. The event will bring together around 500 developers & researchers at the main event.

At the side events, the leading venture capital firms, the most promising Ethereum startups and hundreds of blockchain insiders will gather.
